

MECHANICAL SERVICES TRAINING

SERVICES

Certified Training Programs

Dodge brand products represent over 100 years of experience in designing and manufacturing innovative mechanical power transmission products. Our training programs bring together that experience along with classroom and hands on practical learning enabling you to properly select, identify, install, and maintain the Baldor•Dodge products in your facility.

Classroom Training

Classroom training focuses on giving you the skillset you need to properly select and maintain your Baldor•Dodge products. All training programs can be customized to your request and can be conducted at your facility or ours.

- Product Identification
- Selection
- Installation
- Maintenance
- Lubrication Basics
- Failure Identification
- Troubleshooting
- Storage
- Mechanical Efficiency
- Documentation/Instruction Manuals
- Typical spares
- Predictive Maintenance

Hands-On Training

Hands-on training provides step by step instructor led guidance in a work shop environment with working demos and tools. This training is available at all stages of the product life-cycle.

- Installation
- Removal
- Start-up
- Maintenance
- Assembly and Disassembly
- Inspection
- Best Practices
