

Washdown Duty Jet Pump Motors

Applications:

Industrial pumping applications in wet or humid environments, especially in food and beverage processing facilities in which equipment is cleaned on a regular basis.

Features:

- Contact lip seal and v-ring slinger on drive end to protect from moisture and contaminants
- White epoxy finish coat
- Sealed-for-life ball bearings
- 300 series stainless steel threaded shaft with opposite drive-end screwdriver slot for ease of mounting to pump assembly
- Stainless steel hardware and nameplate
- Neoprene gaskets with lipped-lid conduit box
- Moisture resistant insulation system
- Rotor coated with epoxy primer for corrosion resistance
- Easily removable condensation drain plugs
- Mobil Polyrex[®] EM moisture resistant grease
