

Flange Instructions

These instructions must be read thoroughly before installing or operating this product.

Important Information Regarding the Use of the Fasteners in this Bag

The flange included in this kit can be mounted on either side of the reducer. If the flange is mounted on the side of the reducer shown in the diagram, the side without the bearing cover, **only** use the fasteners included in this bag to mount the flange.

When installing the flange, follow the installation and tightening instructions shown in the *Accessory Kit Installation Instructions Tigear-2* document that is also included with the flange kit.

WARNING: Because of the possible danger to person(s) or property from accidents which may result from the improper use of products, it is important that correct procedures be followed. Products must be used in accordance with the engineering information specified in the catalog. Proper installation, maintenance and operation procedures must be observed. The instructions in the instruction manuals must be followed. Inspections should be made as necessary to assure safe operation under prevailing conditions. Proper guards and other suitable safety devices or procedures as may be desirable or as may be specified in safety codes should be provided, and are neither provided by Baldor Electric Company nor are the responsibility of Baldor Electric Company. This unit and its associated equipment must be installed, adjusted and maintained by qualified personnel who are familiar with the construction and operation of all equipment in the system and the potential hazards involved. When risk to persons or property may be involved, a holding device must be an integral part of the driven equipment beyond the speed reducer output shaft.
